Network of Excellence for Supply Chain Professionals with global interests
Switzerland in the heart of Europe
Over 6,000 companies from all over the world have selected Switzerland as a base from which to build their business across Europe, the Middle East and African (EMEA) market regions.

Investments large and small include European or EMEA headquarters, R&D and intellectual property development, high margin manufacturing, shared services, marketing and sales facilities as well as supply chain management and logistics across a broad business spectrum.

Supply Chain center of excellence
A wide range of international logistics companies have their headquarters in Switzerland and support the country’s excellence as a European logistics and supply chain management center.

CSCMP Roundtable Switzerland is well placed to connect this strong network of supply chain talents, skills and knowledge of professionals and academics across Switzerland consistent with its mission to Connect, Develop and Educate.

Vision
To lead the supply chain profession by connecting, developing and educating logistics and supply chain management professionals based in Switzerland and the neighboring countries throughout their careers.

Mission
To provide a forum for both CSCMP members and potential members in the supply chain community to CONNECT with like-minded professionals within Switzerland and internationally, DEVELOP leadership and management skills to make professionals more successful, and to further EDUCATE those interested in the supply chain discipline.

What we do
- Provide a networking forum for supply chain professionals based in Switzerland and neighboring countries;
- Enhance professional skills to make members more successful;
- Foster an environment that encourages professional growth through local education, events and networking opportunities;
- Present quality programs that provide knowledge that is meaningful, insightful and of high value to all participants;
- Present volunteers with meaningful responsibilities that enable them to grow professionally and personally;
- Provide continuing professional development and local study groups for those who are seeking professional accreditation programs;
- Create awareness of the significance of supply chain management to business and to the economy.
