

CSCMP Future Leaders Program 2022

APPLICATION DETAILS FOR CANDIDATES

CSCMP Switzerland Roundtable is seeking to sponsor exceptional undergraduate or graduate student (age 21+) pursuing a career in supply chain management or studying Supply Chain as part of their curriculum in full time courses. The Future Leaders Program (FLP) is a highlight of CSCMP EDGE – Premier Global supply chain annual event held in the US. Students attend the conference half the time and the other half and support also organising the event.

Highlights and Program features:

- Complimentary attendance CSCMP EDGE 2022 in Nashville, Tennessee, September 18-21, 2022.
- Over 100 Education sessions at EDGE 2022
- Conference hotel stay and meals as per the conference schedule plan
- Economy flight ticket by CSCMP.ch to attend EDGE 2022
- \$150.00 CHF travel stipend
- Annual fees to become a Student CSCMP member
- Attend the Future Leaders Reception among 40 Global selected leaders
- Network extensively with Global Supply Chain professionals

To Participate in the Future Leaders Program:

All Contestants should create a personal write-up essay on ONE of the selected themes below in English composed of 1000 words and send in MS Word with original input. One-page executive summary of the essay in MS PowerPoint to also be included.

The theme for your essay will be answering one of these questions below. The selected candidate will demonstrate their ability to think futuristically to deliver potential solutions to the supply chain management industry particularly in Europe.

Please choose any one theme for your essay from below:

(1) Digital Technology

What new technology do you see as a greatest opportunity for the industry in Europe? Identify the opportunity and challenges to technology adoption.

(2) Sustainability

Supply Chain related Carbon emissions are the biggest challenge. What are some of the opportunities for supply chain professionals for introducing sustainability initiatives with biggest impact in Europe?

(3) Future of Work in Supply Chain

Supply Chain organisations must adapt to Technology trends changing jobs as well the meet the requirements of new workforce generations. What is something that the supply chain industry in Europe can do to address these challenges and ensure successful Supply Chain careers and adapt to the future of work.
